

Algebra is a digital office products specialist that will make a real difference to your organisation.

By harnessing the dramatic changes to the workplace created by the IT revolution, Algebra has become one of the most successful integrated office solutions providers in the country.

The technical knowledge and experience that we have gained since the creation of the company more than a decade ago now provides a valuable resource to more than 2,000 customers across a wide range of business and service sectors.

Key to our success continues to be our commitment to technical advancement and the promise of a skilled service and customer support function.

Algebra has reacted to the new opportunities created by a new era of digital integration in the 21st Century by creating five key divisions:

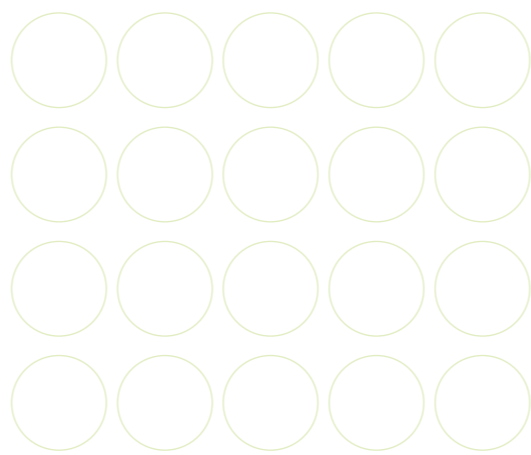

- Digital Print and Copying; our photocopying and reprographics division laid the foundations for today's Algebra.
- Information Technology; an accredited IBM Business Partner, specialising in corporate IT infrastructure solutions to both wide area and local networking technologies and server resources.
- Telecommunications; focusing on cost effective network services and digital products for voice and data traffic.
- Office Furniture and Supplies; providing the necessary environment for modern-day working.
- Service and Customer Care; a dedicated technical and sales support operation.

The scope, quality and distribution of our products and services continues to make Algebra the leading choice for knowledgeable buyers.

Algebra remains committed to investing in long-term partnerships in return for providing quality servicing and competitive pricing.

Our promise is to deliver and support high quality integrated business solutions that make a real difference to you, your business or your organisation.

"Algebra = problem solved!"
