ENVIRONMENTAL SERVICES

## creating a soothing environment

Make your working space pleasant, fit for the best of times. Be there to solve problems and prevent them from arising.

**Air pollution, Light levels, Water quality, Noise control.**

The focus of your working environment affects everyone's performance.

We have been helping the world's best organisations solve their problems with proven, effective working solutions. In the process, we have helped you to improve your business. Now, the same approach will create successful strategies for you.

Our highly qualified consultants can help you with:

- **Noise Monitoring** - reducing light/noise levels and vibration monitoring
- **Air Monitoring** - from working to better business and the customer's wellbeing
- **Water Pollution** - to provide long and sustainable solutions
- **Electrical Testing** - making sure your systems comply with regulations
- **Risk Assessment** - with a view to your long-term profitability

Whether you're a small organisation, a public body or a leading blue chip, we'll build our expertise to ensure your business is ready for the future.

**Work is full of distractions. Some we can eliminate.**

HEALTH & SAFETY

## healthy people, healthy business

Brighter is better. Get your people on your business. When they're well, so is your business. When they're healthy, so are your profits.

That's why the best businesses take Health & Safety seriously. And why MJL has built a team of Health & Safety experts.

We'll help you to comply with the regulations. Help you to manage your business. Change things. And help you to do it all with a complete in-house budget to match.

Because the best businesses don't just manage their people, they bring out their best.

**And we're all here if things go wrong.**

So you can avoid an unnecessary accident. Work with the specialists and get your people back to business as usual.

If it hasn't happened, we'll investigate - and provide you with a prevention plan.

If it has happened, we'll help you to get your people back to work as quickly as possible.

**Your people are your business. Looking after them is ours.**
